ANIMAL FEED INDUSTRY LABORATORIES

The following laboratories in South Africa are available for various analysis on food, feed and water samples.
The facility accreditation shown in the table below was correct at the time of publishing, but may change over time.
Clients should always verify the accreditation status, certificate and schedule of accreditation (including the Scope) of a particular laboratory before submitting feed or water samples for analysis.

** The facility accreditation number can be used on the SANAS website (www.sanas.co.za) to search for a specific laboratory. Each accredited facility contains a Certificate and Schedule of Accreditation linked in PDF format, which can be viewed after selecting a specific laboratory.
Each facility's schedule of accreditation lists the scopes for which SANAS has granted accreditation.
